## ABOUT SYMPHORIA

Symphoria is derived from ‘Sympherin’ in Greek, which means bringing together of reactants into the proper spatial relationship. As the name suggests several Technical Events are planned by the Internal Quality Assurance Cell (IQAC) and organized under Symphoria with an aim to associate Industry-Institute-Faculty-Student. Through a series of Guest Lectures by prominent resource persons from Industry, Industrial Internships and Visits, Poster Presentations, Debates and Quizzes students are educated about the recent Research and Developments in the field of Pharmaceuticals and the various Career Opportunities available thus helping our graduating students to identify their career paths.

## SYMPOSIUM HIGHLIGHTS

The upcoming symposium on “Emerging Trends in Clinical Research and Pharmacovigilance” is designed to provide a dynamic platform for examining the intricate interplay between scientific innovation and participant welfare. Distinguished experts will delve into critical ethical dimensions such as informed consent, confidentiality, risk-benefit assessment, and ethical governance of global clinical studies. In addition, focused sessions on pharmacovigilance will address the systematic detection, assessment, and prevention of adverse drug reactions, strengthening safety signal management and regulatory reporting throughout the clinical trial and post-marketing phases. The program will emphasize the importance of transparency, regulatory compliance, and adherence to Good Clinical Practice (GCP) standards to foster public trust in clinical research. Through interactive sessions and real-world case analyses, attendees will gain hands-on perspectives on challenges related to vulnerable populations, post-trial obligations, and data integrity. The symposium will conclude with actionable insights promoting continuous ethical training, strengthened Institutional Ethics Committee oversight, and the integration of patient-centric principles to advance responsible and ethically sound clinical research.
